EDITING AND DVD AUTHORIZING:

Your videos will be professionally edited. If multiple cameras were used we'll blend the footage together. Effects may be subtle or extreme, like cross dissolves, explosions, etc...

We may create a custom menu with pictures or artwork and scene selection for your DVD or Blu Ray disc. Multiple menus may be created on multiple menu pages if you have a lot of scenes/songs.

WORLD WIDE EXPOSURE:

We may put your Music Video on YouTube or other websites. Our YouTube.com/Neofilm channel is constantly growing to offer musicians more exposure opportunities. We may also make you a website to showcase your music videos and more. Check out some of our musician website demos for examples.
